***Election/Restrictions***

- I. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-9, drawn to a method of treating an autoimmune or hyperplastic disease in a mammal, comprising administering a compound of the formula.
  - II. Claim 10, drawn to a method of stimulating Fas-mediated apoptosis in a cell having a Fas receptor, comprising contacting the cell with a compound of the formula.
  - III. Claim 11, drawn to a method for obtaining and/or developing a compound that has at least one desired function selected from the group of stimulating the Fas receptor and stimulating Fas-mediated apoptosis.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the Group I invention can be practiced with different modes of operation or different functions as described in US 4666917; US 4816456; US 5294715; WO 99/58126; JP 01-221364; and US 5135934.

Inventions I and III are distinctive each other because the inventions have acquired a separate status in the art by their different classification (Invention I, classified in class 514, subclass 297; Invention III, classified in class 435, subclass 7.1, 7.2).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or III, restriction for examination purposes as indicated is proper.

Art Unit: 1614

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Kwon whose telephone number is (703)308-5377. The examiner can normally be reached Tuesday through Friday from 9:00 am to 7:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marianne Seidel, can be reached on (703) 308-4725. The fax number for this Group is (703) 308-4556.

Any inquiry of a general nature of relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-1235.
